Meeting of the General Board

4th – 5th of February 2014, Vienna, Austria

After the Kick-off Meeting in December 2012, the SPIDIMAN partners met again at „Haus der Forschung“, Vienna, Austria on the 4th/5th of February 2014. All participants from Great Britain, Luxembourg, France, Germany and Austria presented their progress made during the 1st project year, agreed on the pathway for a successful 2nd year and discussed about the main challenges thinking of the ambitious goals of the SPIDIMAN project.

Facing the SPIDIMAN objectives of *developing a comprehensive coating technology, optimising the optical glucose measurement and control algorithms, building a new single-port AP device and validating the new single-port AP both in a preclinical and clinical setting*, Project Coordinator Univ.-Prof. Dr. Thomas Pieber, Director of HEALTH – Institute for Biomedicine and Health Sciences of JOANNEUM RE-SEARCH Forschungsgesellschaft mbH emphasized the importance of teamwork within the well-chosen consortium.

This project is funded by the EU Framework 7 Programme, contract no 305343.
